

My comments are in regards to the radio station K-LOVE. This station has served me as a resident of the Bellevue/Omaha, Nebraska area for over 5 years. Having a radio station available like this in our community helps those of us raising children to have a positive choice on the radio station to listen to. No vulgarity is present and as a parent and a member of this community I feel it is important to have that choice. If this station were to be displaced by an LPFM broadcaster providing other programming, I, and my community would lose a valuable service of such a positive nature. There aren't enough of these types of radio stations out there and to displace the few we have is unfair. Without a station like this, we would have nowhere on the airways to go to have a positive influence for the children of our community. I urge you to not replace K-LOVE with an LPFM which may not have the same family friendly programming as K-LOVE. Not only is it in my community's best interest, but for those of a country who needs the positiveness offered by radio stations such as K-LOVE. In my area K-LOVE is heard on 88.1, 91.9 and 88.9. Please don't remove these for the LPFMs!

I appreciate you time.
